EDUCATION

Abdul Kalam Technological University

Bachelor of Technology in Computer science artificial intelligence
Cumulative Grade Point Average: 6.5

GB.Nagar, India

nov 2022 – present

PMS Public School

10th: 95%, 12th: 84.4%

Moradabad ,UP

May 2021

EXPERIENCE

Frontend Intern

Sep 2025 – Nov 2023

Platinum Infosolutions

Remote

- Built responsive web interfaces using HTML, CSS, JavaScript, and React, also improved load speed by 25%.
- Integrated APIs and refined UI/UX with backend and design teams, increasing user retention by 20%.

Market Research Intern

Apr 2023 – Jun 2023

Incisiv

Remote

- Automated website analysis using Python web scraping script (BeautifulSoup), reducing evaluation time by 40%.
- Generated structured datasets for benchmarking digital capabilities for 500+ restaurants.

PROJECTS

Waste Management SaaS Platform | React, Node.js, PostgreSQL, JWT

Nov 2025

Developed a role-based platform for organizations and collectors to manage waste, enforce compliance, and monetize recyclables.

Key Features:

- JWT Auth & Role-Based Dashboards for Org / Collector / Admin
- Waste Segregation & Compliance Engine with violation detection and penalty simulation
- Geo-Based Pickup Matching & Marketplace for dry waste with transaction tracking
- Analytics Dashboard showing waste trends, earnings, and estimated carbon footprint

AI-Based Real-Time Speed Breaker Detection System | Python · PyTorch · YOLOv8 · OpenCV · SQLite

Jun 2025

- Built a real-time speed breaker detection system using YOLOv8 and OpenCV, **processing live webcam feed** with bounding boxes and ~85% detection accuracy
- Designed an automated SQLite logging pipeline capturing timestamp, GPS location, **confidence score**, and frame snapshot per detection
- Optimized inference on Apple M1 using Metal Performance Shaders (MPS) for real-time performance on consumer hardware

3D Interactive Portfolio | HTML, CSS, JavaScript, Three.js, GLTF Loader

Oct 2024

- Built an immersive 3D portfolio website where users navigate a virtual city to explore sections like Resume, Projects, and Contact.
- Integrated GLTF 3D models, smooth animations, and **camera controls** for a game-like interactive experience.
- Embedded a mini Simon Game to demonstrate frontend logic, **DOM manipulation**, and interactivity.

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript

Databases: PostgreSQL

Frameworks: React, Node.js, Express.js, Tailwind, Three.js

Developer Tools: Git, Vercel, JWT Authentication, REST APIs

CERTIFICATIONS

- The Complete Full-Stack Web Development Bootcamp.
- The Complete Python Bootcamp From Zero to Hero in Python
